- 2) The Benchmark is BINDO Index starting 01-May-16.
- 3) The Net Asset Value / Unit has calculated the costs, including fees related to transaction and transaction settlement as well as administration and recording.

### Investment Manager Commentary

Indonesia bond market fluctuated in August overshadowed by various sentiments from internal and external, from internal BI rate cut for the second time this year by 25 basis points to be 5.50% help to lower government bond yield, while external uncertainties such as; escalation of US – China trade tension, Yuan devaluation and yield inversion between 2 & 10 year US Treasury had weighed on market performance. Overall in August BINDO strengthened by 0.38%. Foreign investor in bond market posted first monthly net foreign outflow since May by IDR3.40 trillion. August inflation rose to 3.49% YoY from previous month 3.32% YoY. Lower portfolio performance compared to benchmark was due to longer portfolio duration amid higher volatility in bond market.
