- 3) The Net Asset Value / Unit has calculated the costs, including fees related to transaction and transaction settlement as well as administration and recording.

Investment Manager Commentary

Both equity and bond market posted positive performance in July supported by positive newsflow from global and domestic markets. On the global front, the market was driven by optimism of a more accommodative The Fed to support growth amid various global headwinds. Market's optimism on The Fed's course was also supported by European central bank and Bank of Japan that pivot to a more accommodative stance. On the domestic front, the market welcomed Bank Indonesia's decision to cut rate from 6% to 5.75%, and BI's accommodative stance that opens to further rate cut. JCI index rose 0.50% in July and the bond market rose 1.24%. Rupiah appreciate 0.74% against USD to 14,126. Portfolio allocation in both equity and bond market posted positive attribution in July.
