- 3) The Net Asset Value / Unit has calculated the costs, including fees related to transaction and transaction settlement as well as administration and recording.

Investment Manager Commentary

Indonesia and developed markets equity positive performance in December as global investor sentiment improved. The market welcomed the conclusion of US election period, reducing uncertainty factor in the market. The market also welcomed positive news on vaccine development, concluding its third phase trial and gaining approval in various countries such as US and UK. On the domestic front, macro economic data showed improvement, with exports grew 9.5% YoY and imports -17.5% YoY, better than the previous month. Rupiah appreciate against USD by 0.5% to 14,050 per USD. Portfolio allocation in long-tenor bond posted positive attribution in December, while allocation in short-tenor bond posted negative attribution.
