### Investment Manager Commentary

Asia Pacific equity market continued strengthening, FTSE Sharia Asia Pacific ex. Japan Index in IDR rose by 12.44% in July. Optimism for positive developments in vaccine trials, recovery in economic data and hopes for additional stimulus are positive sentiments driving the Asian stock market performance. Global central bank's accommodative policy is expected to be maintained to support liquidity and economic recovery process. Portfolio allocation in health care and consumer discretionary posted positive attribution, while allocation in information technology dan energy posted negative attribution.
