Investment Manager Commentary

Global stock markets, including Indonesia were mostly down in September triggered by concerns over global economy recovery prospect and persistent pandemic. Jakarta large scale social restriction for the second time starting 14 September also weighed the sentiment of Indonesia financial market, Indeks Saham Syariah Indonesia weakened by 6.23%. There was a large foreign outflow from the stock market valued at IDR15.61 trillion. Indonesia macro economy continued to show a mixed picture. In September the economy posted the third consecutive deflation, making annual inflation of 1.42% YoY. Foreign reserve declined to USD135.15 billion in September from record breaking USD137.04 billion in August. Rupiah weakened by 2.18% against USD. Portfolio allocation in consumer staples posted positive attribution, while allocation in communication services and industrials posted negative attribution.
