- 2) The Net Asset Value / Unit has calculated the costs, including fees related to transaction and transaction settlement as well as administration and recording.

Investment Manager Commentary

The REIT market weakened in November, pressured by negative sentiment for the emergence of a new variant of COVID-19 and worry that the Fed will be tapering and raising interest rates sooner than expected. Increasing vaccination and opening up regional borders will provide better upside potential in the Asian REIT market, especially for sectors affected by the pandemic such as retail, office and hospitality.
