Investment Manager Commentary

Indonesia macro indicators continued showing recovery. As fiscal revenue remains strong – generating fiscal surplus of IDR153t in 1H23 – the government revised its FY23 budget deficit to 2.28% of GDP from 2.84%. Bank Indonesia repeatedly stated that still comfortable with current interest rates at 5.75% given the fact that inflation remained manageable with the CPI inflation rate declining, although the BI would continue monitoring the currency impact.
