### Investment Manager Commentary

Following preliminary euphoria post the quick count election results, the Indonesia stock market tend to weaken. The Indonesia equity underperformed the global market, regional market and emerging market. Foreign investors still posted positive inflow of +USD505.6 million in March. Indonesia macro indicators remain stable in March 2024. Headline inflation came in at 3.05% YoY, from 2.8% YoY in February, mainly driven by food inflation during the Ramadhan month. Indonesia Manufacturing PMI increased to 54.2 in March from 52.7 in February, showing the 31st consecutive monthly growth in factory activities. Portfolio allocations in energy and utilities contributed positive attributions, meanwhile allocations in materials and IT contributed negative attributions to performance.
