## **Manulife Indonesia Provides Sea Turtle Enrichment Experience for 70 Children Living with Hearing Impairment and Autism**

**Bali** - Manulife Indonesia and KitaOneUs.Asia are pleased to announce they will provide an environmental experience to 70 children living with hearing impairment and autism in Bali. The experience includes a unique opportunity to help release hatchlings as part of their shared commitment to support the sustainability of the sea turtles' habitat.

Manulife strengthens the commitment to make lives better, help protect the environment, and empower sustained health and well-being through this activity. It is also aligned with Manulife's CSR pledge to share our humanity values.

"Foundational to our success is ensuring that all colleagues, customers, and stakeholders are respected, feel connected to each other and to our mission, and are treated with equity and dignity," said Ryan Charland, President, Director & CEO, Manulife Indonesia. "This experience is one more way we're working to support the diverse community we serve."

"We're grateful for the opportunity to collaborate with Manulife Indonesia through this program. We hope this can be another step in promoting the awareness and acceptance of children with disabilities, as well showcasing that these children can also contribute to the environment. Through this initiative, we hope to get more people to show their care for the environment," said Maria Ulfah, Chair of the KitaOneUs Indonesia Inklusi Foundation.
